INTRODUCTION

With a clear motive to produce quality rice, Ahmed Associates started its operation in 1988 from Lahore.

In a short span of time, through sheer hard work, optimum quality control and by honoring commitments the company has attained a reputation of valuable importance as quality rice exporters.

We produce our rice from the internationally renowned rice growing belt of the Punjab in Pakistan after careful checking and scrutiny for quality remains at the top of the agenda.

We are successfully exporting premium quality rice to vary satisfied buyers in the Middle East, Canada and North America.

OUR BRANDS

BASMATI RICE BRANDS

OUR MACHINERY

In order to maintain our high standard of quality, we are utilizing the best machinery in business.

We process our rice using SATAKE and MEYER and combination of imported machines. With help of this highly sophisticated machinery, we achieve consistency and uniformity in grain length and control the broken percentage according to the specified requirements of our valued buyers.

- OPTICAL SORTER
- DE-STONERS
- COLOR SORTER
- THICKNESS GRADERS
- ROTARY SIEVES
- PADDY SEPARATOR
- POLISHERS
- LENGTH GRADERS

With this state-of-the-art machinery coupled with our production plant, we have the capacity to process 10 Metric Tons of Rice per Hour.

To ensure the quality and safety of the product, each bag passes through an Infrared Detector which ensures there are no foreign particles within the final product
